## CONTENTS

### —Reviews—

<b>Kichitarō Takatori:</b> Recent Advances in Chemotherapy of Schizophreny.....	1
<b>Yōki Ose:</b> Introduction of the Folkloric Method for the Study of the History of Pharmacy .....	12

### —Ordinal Reports—

<b>Takeshi Shimano and (miss) Kazuko Taki:</b> Studies on Triterpenoids. II. Detection of Triterpenoids by Paper Chromatography. 1. ....	24
<b>Takeshi Shimano and (miss) Kazuko Taki:</b> Studies on Triterpenoids. III. Detection of Triterpenoid Glycosides by Paper Chromatography. 1. ....	27
<b>Takeshi Shimano, (miss) Kazuko Taki and Akio Kawanishi:</b> Studies on Triterpenoids. VII. Detection of Triterpenoids by Paper Chromatography. 2. Distribution of Triterpenoids in the Ericaceae. ....	30
<b>Takeshi Shimano, (miss) Kazuko Taki and Tatsurō Yamamoto:</b> Studies on Trit- erpenoids. VIII. Detection of Triterpenoid Glycosides by Paper Chromato- graphy. 2. Distribution of Triterpenoid Glycosides in the Ericaceae. ....	33
<b>Kichitarō Takatori, Shingo Asano, and Fumio usui:</b> Synthesis of 4-Methyl- anthranilic Acid for Oncostatica .....	35
<b>Yoshio Katō, Mamoru Sugiura and Haruyoshi Yamada:</b> Studies on the Stability of Ascorbic Acid III. On the Solution of Ascorbic Acid. ....	37
<b>Hideo Takenaka and Hajime Itō:</b> Studies on Solubilized Drugs. I. On Solubilized Adrenaline.....	43
<b>Kazuo Hirose and Yōki Ose:</b> Studies on the Mechanism of Antibacterial Action by Quinones VI. Effects on Enzymes 1. Effects on Dehydrogenase. ....	46
<b>Isao Ishiguro, Yoshio Katō and Mamoru Sugiura:</b> Studies on the Mechanism of Riboflavin Photolysis and its Stability. ....	49
<b>Yōki Ose, Taira Ikeda and Kazuo Hirose:</b> Determination of Radio Activity in Active Slush. ....	55
<b>Yōki Ose, Taira Ikeda and kazuo Hirose:</b> Hygenic Chemical Analysis by Paper Electrophoresis I. Cooling Apparatus for Electrophoresis. ....	57
<b>Yōki Ose, Taira Ikeda and Kazuo Hirose:</b> Hygenic Chemical Analysis by Paper Electrophoresis. II. Separation of Sr, Ba and Zr. ....	60
<b>Note</b>	
<b>Mikio Hori, Yasusi Abe, Yutaka yamakawa and Hajime Fujimura:</b> Synthesis of <i>dl</i> -9-Dimethylamino-9.10- dihydrophenanthrene. ....	65
